JUJU ALKALINE WATER

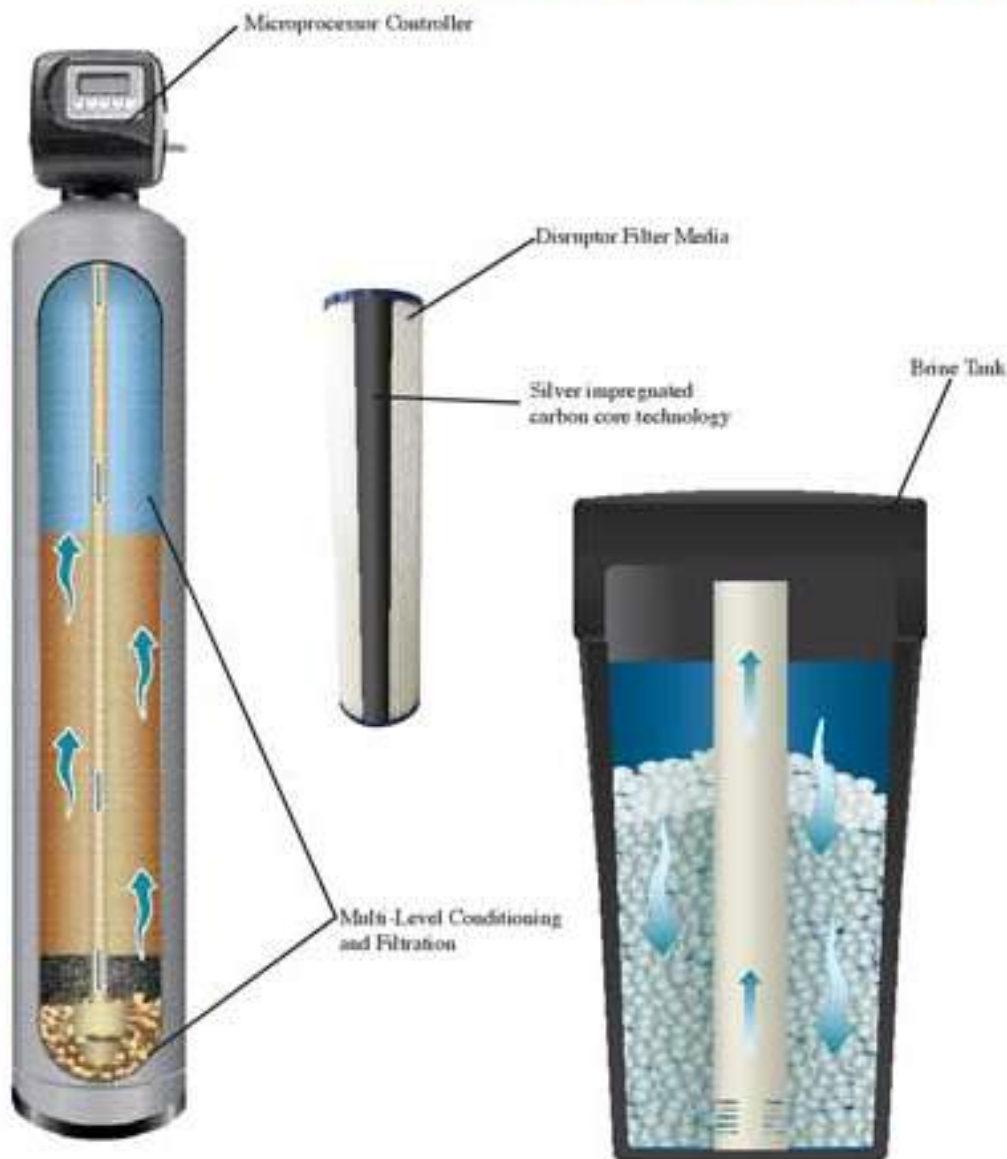

We sell Purified Alkaline Water and also install water purification systems in Atlanta, GA. Whether you want a whole-home water filtration system or a single reverse osmosis filter, you can rely on us for expert installation.

HEALTH BENEFITS

Water comprises almost two-thirds of our bodies, so it makes sense to stay hydrated with pure, contaminant-free, great tasting water for optimal health and refreshment. Our Systems remove chlorine, sediment, and organic & inorganic contaminants. Our systems even filter your water for metals, heavy metals, and medications. Amazing for your skin and overall health!

HOUSEHOLD BENEFITS

In addition to the obvious benefits of drinking, cooking, and bathing with pure water, there are many benefits you may have overlooked within your home. Filtered water reduces the wear and tear of your plumbing and appliances due to hard water and contaminants. Clean water also reduces residue and build-up left on surfaces in the home. Less upkeep costs and less time cleaning.

FINANCIAL BENEFITS

Typically, JuJu Water System customers see a reduction in appliance and energy costs, simply by having a water treatment system installed. Also, having clean, filtered water in the home reduces the amount of soap products used, as well the time spent cleaning areas such as bathrooms and kitchens. Save money, while improving health, wellness, and the investment in your home!

REVERSE OSMOSIS

REVERSE OSMOSIS DRINKING WATER SYSTEMS

The *ATS Filter, Reverse Osmosis Series*, is one of the most convenient and economical methods of reducing the unwanted contaminants that are in your drinking water.

We can install your new water filter under the sink of your choice-so you can enjoy clean tap water.

Remove contaminants from your drinking water.

Save money on your utility bills with an energy-efficient filtration system.

Rid your water of salt to reduce your sodium intake.
